AVANTGARDE KEYFACTS & FEATURES

LSS

Lumbar Spine Support
The newly designed LSS backrest with a wider soft padded head cushion increase the relaxed sitting and lying comfort.

DSF

DuraLite® SpaceBox Frame
The new L- shaped structure offers the best possible function for one compact frame folding dimensions. It is ultra light and unbelievable strong.

DFG

Duralite folding gear
The folding gear is made of a light material. It guaranties an easy folding and unfolding process and offers a maximum of stability.

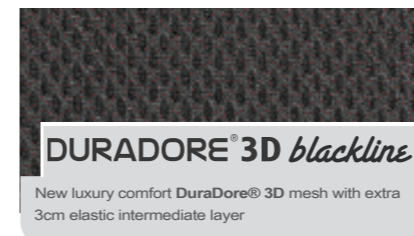

DURADORE® 3D

DuraDore® 3D - fiber mesh cover
The seat pad in DuraDore® 3D fiber structure is soft and the material is breathable. It offers a perfect seating comfort at all weather conditions. The „Aqurinse Technology“ of this new fiber leaves the rainwater run through the structure. The fabric dries instantly.

DPA

DuraProtect® armrest
The new ergonomically shaped armrest made of „ DuraProtect®“ - fibers are almost unbreakable and offers an optimal protection against wear. The seating position is very easy to adjust.

DURADORE® 3D blackline

New luxury comfort DuraDore® 3D mesh with extra 3cm elastic intermediate layer

The Avantgarde Series is the ultimate Technology Series of our Company.

For all products in the new developed range we combine modern design with the newest materials in fabric and metal.

We use our most advanced production technologies.

All metal parts are made of **DuraLite®**, a new developed and patented structure.

The chairs are equipped with an ultra strong but superlight **SpaceBox®** frame.

We use the first time the **DuraProtect®** arm rest and **DuraDore® 3D** fibre mesh

Our Innovation, Always for your Comfort.

SUPERIOR

The director's chair is an addition to the Avantgarde range. Used as comfortable chair for guest or as comfort chair, it is the ideal travel companion, for anyone with limited space. The stable and very light frame made from aluminum material in combination with the vast seating divide this directors chair from its competitors. The ultra-slim design allows transport in even the smallest vehicles.

DYNAMIC

This set, consisting of a stable folding stool and an according table top, is a multifunctional supplement to our chairs. The stool can also be used as feet rest, while the table top can also be easily transformed into a serving tray, using the swing out handles.

PERFORMANCE KEYFACTS & FEATURES

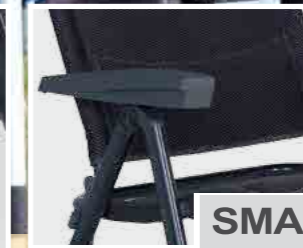

LSS

Lumbar Spine Support
The newly designed LSS Backrest with a wider soft padded head cushion increase the relaxed sitting and lying comfort.

RPF

Reinforced Performance Frame
The rigid aluminum frame with 30% thicker walls makes the performance chairs almost indestructible.

SMA

Sliding Metal Armrest Adjuster
Due to the metal rails, the adjuster will not wear off even after years of use. It is very easy to adjust and extremely stable.

Duralite® is an exclusive light alloy, the special designed material is perfect for outdoor activities. It is ultra-strong and at the same time super light.

DURADORE® 3D - fiber mesh cover
The 3D fibre structure is soft and the material is breathable which offers a perfect seating comfort in all weather conditions. The "Aquarise Technology" of this new fibre let the rainwater move through the structure. The fabric dries instantly.

ErgoShell

The ergonomically shaped seat with ErgoShell® technology offers optimal support and comfort.

AMH

Aluminum Metal Hinges.
The metal hinges provide extra strength, durability and stability.

This Series is the perfect range for all who look for the best balance of comfort, durability and quality.

The reinforced "Performance" frame offers 30% more wall strength than standard products in the market.

Our metal slide armrest and the aluminum dycast folding gear make the chairs nearly unbreakable.

Your back spine will love the improved ergonomic backrest.

The ultra strong DuraDore®3D fabric offers the best weather resistance that all weather Camper can get.

AERONAUT

The relaxation chair combines a timeless design with comfort and luxury.

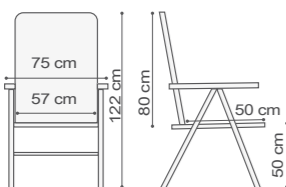

The easily detachable DuraDore® 3D seat / back with built-in pillow and lumbar support optimizes your comfort. The robust aluminium frame has a maximum carrying weight of 140 kg.

With the practical adjustment mechanism, you can easily change the Aeronaut from a comfortable chair into a relaxed lounge chair. The chair is designed for optimum comfort and offers enough space for both sitting and relaxing in any position. Experience the comfort of „weightless“ relaxation.

The relaxation chair folds up very flat, making it easy to transport and, of course, easy to store.

ModuCamp

ModuCamp
The feeling of being at home while traveling.

The ModuCamp consists of different modular kitchen cabinets and expansion modules. The individual modules can be combined in any order and number using the innovative fasteners.

Each module unit can also be used individually.

You can increase your enjoyment with our bespoke accessory range.

The individual storage units are constructed using the latest technology to create a quick and simple sturdy structure that is very stable. It is only necessary to insert 4 rods and secure with screws to erect the module. With the help of our easy-start thread textile fabric between the top and bottom frame will assist with wrinkle free construction.

The height-adjustable feet allow maximum stability on any terrain.

The work area is divided so that both a camping bucket as well as a professional water system can be converted to the sink. The innovative expansion modules can be mounted at any point in the upper part of a cabinet.

On offer there is a towel rack, a universal container with lid and a hanging organizer. The practical ModuCamp pockets allow easy transport and safe storage.

PIONEER

Our well-known Pioneer chair has been improved. The extended seat cover gives extra support for an even greater comfort. Both seat and back are equipped with a padded DuraDore® 2D mesh. A head cushion, adjustable in thickness, is included in the backrest. The inside reinforced aluminium frame is fully anodized and makes this chair not only comfortable but also strong and durable.

Once again improved in 2019!
